This declaration conforms with the requirements of annex II-A of the council directive 98/37/EEC. Any modification to the above described machine violates the validity of this declaration.

ELEVATING WORK PLATFORM

Manufacturer : HAULOTTE GROUP
 Type : HA16PX
 Serial N° : AD116904
 Capacity : 230 KG

TESTING REPORT

STATIC TEST

Overload %	Load applied	Time	Results
25	290 KG	15 minutes minimum	Satisfactory : no permanent deformation has been noted Hydraulic tightness : satisfactory

DYNAMIC TEST

The testing load has been displayed in all positions allowed by the arrangement of the places and by the capacity of the load

Overload %	Load applied	Movements carried out	Results
10	250 KG	All the movements of the arm and translations of the machine Speed limiter	Satisfactory

TESTING RESULT

The machine went through all the static and dynamic tests without failure
 Good operating mechanism : good efficiency of the different devices and above
 all the brakes and speed limiter.

The machine has been tested in our works in L'HORME on 31/07/07
